

Greek Mythology Binder

Table of Contents/Rubric

You must keep a 3-ring binder for the duration of our unit on Greek mythology. Use this table of contents and dividers to section off your binder as described below. Obviously, you'll need dividers only for the first four sections. Keep all materials returned to you in this notebook. At the end of the unit, this binder will be worth 350 points. Organization and neatness are critical.

Requirements for your binder:

Notes on myths:

A separate sheet of paper will be used to take notes on each of the following myths: 180 pts.
(15 pts. each)

1. Uranus	5. Demeter	9. Orpheus
2. Kronos and Zeus	6. Psyche and Eros	10. Midas
3. Prometheus	7. Daedalus	11. Theseus
4. Pandora	8. Narcissus and Echo	12. Perseus

Flashcards:

You must make a flashcard for each of the characters listed on the board each day. On the front side, write the character's name and draw a symbol to represent the character. On the reverse side, write at least two sentences describing the character and his/her relationship to other characters. You will have a total of 50 flashcards by the end of the unit. 50 pts.
(1 pt. each)

Quickwrites:

These quick, in-class or homework writing assignments must be kept in your binder. Each quickwrite must be **at least 1/2-page minimum**. Do not write my prompt on your page to fill space. Do not double-space your writing. You will have a total of eight quickwrites. 80 pts.
(10 pts. each)

Homework/Classwork:

Use this section of your notebook to place anything from this unit that doesn't fit in any of the above categories (extra notes I give you, any writing assignments you are asked to complete other than the main eight quickwrites (see above), graded quizzes, etc.) Many of these items will receive separate grades outside of the binder total, but I still want you to keep them in your binder as study resource material. 20 pts.

Neatness/Organization:

When I begin to grade your notebook, all items need to be in the correct spot. 20 pts.

Total points: (out of 350 pts.possible)

Letter grade equivalent:
